## Innovation Policy Charter

- Effectively contributing to making the Islamic World Educational, Scientific and Cultural Organization one of the most innovative organizations in the world.
- Disseminating the concept and culture of organizational innovation among our employees, partners, clients and the local community
- Providing a practical environment that supports innovation and is equipped with the latest technologies and tools to provide the necessary support for innovation labs
- Embracing creators and innovators and motivating them financially and morally
- Conducting local and international benchmarking to identify best practices in the field of innovation
- Motivating everyone to submit innovative and pioneering ideas through innovation platforms and all available channels
- Preparing legislation, policies and regulations that preserve intellectual property rights and patents
- Building cooperative and strategic partnerships with the government and private sectors, organizations, institutes and universities in the field of innovation
- Launching initiatives in cooperation with specialized and leading global institutions and companies in the field of innovation
- Commitment to meeting the applicable requirements of the innovation management system and taking into account ethical and sustainability aspects
- The organization seeks continuous and effective improvement of the innovation management system.
