ICESCO core Values

I. Objective

- Contributing to the effective supervision and coordination of AI projects within the Center for Foresight and AI, with the objective of strengthening network development, supporting the launch of AI and AI governance initiatives, and facilitating strategic consultations. The role also aims to advance the development of AI-related regulatory frameworks, foresight studies, and capacity-building programs, in order to anticipate emerging AI governance trends across ICESCO Member States and promote informed policymaking and responsible AI adoption.

II. Tasks

- Conduct research on AI regulation, ethics, and responsible AI adoption across different sectors.
- Develop AI policy frameworks and ethical guidelines aligned with international best practices.
- Collaborate with governments, institutions, and international organizations to promote responsible AI use.
- Establish AI strategic monitoring mechanisms to track developments in AI policy and governance.
- Organize conferences, workshops, and capacity-building programs on AI ethics and governance.
- Draft reports, policy papers, and recommendations on AI governance for ICESCO Member States.
- Assist in fundraising efforts and develop partnerships with AI governance stakeholders.
- Perform any other tasks related to the area of AI governance as assigned.

III. Qualifications and Competencies

Academic Qualifications:

- Master's or PhD in Artificial Intelligence, Data Science, Ethics of AI, Digital Governance, or a related field.
- AI Ethics and Governance Certification / Digital Policy & Regulation Certification.

Skills and Competencies:

At least 10 years of professional experience in one of the following areas:

- AI Governance
- AI Ethics
- Emerging Technologies.
 - A professional experience of at least 3 years in an international organization or a multinational.
 - Proven experience in AI and Policy development.
 - Capacity to mobilize funding and develop AI governance networks.
 - Excellent communication, presentation and negotiating skills.

Core competencies

- **Strategic Thinking** – analyzing complex issues and developing long-term solutions.
- **Problem-Solving** – proposing innovative and effective solutions.
- **Results-Oriented Approach** – Endeavor to achieve impactful outcomes aligned with ICESCO's strategic goals.
- **Collaboration and Teamwork** – Strong ability to work across different sectors and disciplines.
- **Adaptability and Flexibility** – Multicultural experience with a strong ability to operate in an international environment.
- **Project and Program Management** – Strong planning, implementation, and project evaluation skills.
- **Networking and Partnership-building** – Ability to establish and maintain relationships with stakeholders, Member States, and international organizations.
- **Communication and Negotiation** – Excellent written and verbal communication skills, with the ability to engage with diverse audiences.

IV. Salary, allowances and benefits

- In case of recruitment, the candidate will benefit from the salary and bonuses and privileges set forth in ICESCO Personnel Regulations.

The processing of applications is subject to the abovementioned criteria and may also include tests or evaluations in addition to a job interview.
